A Hint for Coming Maternity

This little book designed for expectant mothers more complete instruction is given in the use of "Mother's Friend." This is an external emulsion applied to the abdominal muscles for the purpose of reducing the strain on ligaments, cords and tendons. In thus bringing relief and avoiding pain great aid is accomplished. It serves to ease the mind, indirectly has a most beneficial effect upon the nervous system and the muscular system. Mothers delightedly told how they were free of nausea, had no morning sickness and went through the ordeal with most remarkable success. "Mother's Friend" has been growing in popular favor for more than forty years. In almost every community are grandmothers who used it themselves. Their daughters have used it and they certainly must know what a blessing it is when they recommend it so warmly. Strictly an external application it has no other effect than to ease the muscles, cords, tendons and ligaments involved hence is perfectly safe to use by all women. It is used very successfully to prevent casting a loquax.

"Mother's Friend" is prepared in the laboratory of Bradford Regulator Co., 404 Lamez Bldg., Atlanta, Ga.
